TRUCK TYRE CHANGERS

Super Automatic tyre changer for trucks, agriculture and earth moving wheels, up to 58".

Suitable for normal and tubeless tires. Self-centering hydraulic chuck with 4 clamping jaws. Variable speed motor (inverter) (it allows siping on agri-tires). Clockwise and anticlockwise rotation of the chuck. Universal toolhead. Mobile Chuck Arm with hidraulic motion (left-right). Hidraulic lifting of chuck up-down. Electro-Hydraulic displacement (left right) of the arm that contains the toolhead. Toolhead with automatic lifting and automatic rotation. Mobile remote control (low voltage).

RGU588E

Synchronized travelling movement of clamping chuck arm and tool carriage allows to speed up operations.

Demounting tool and bead breaking disk operating perfectly perpendicular to the center of the wheel.

Tools holding arm and clamping chuck arm move in synch, keeping the tools perfectly tangent to the wheel, thus reducing tension and protecting rim and tyre from any damage.

Multistage clamping jaws

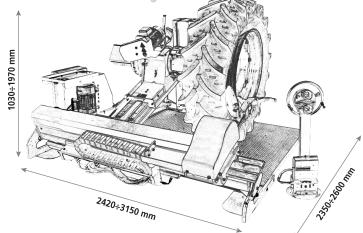

OPTION Suitable for control console installation on pivoting arm.
